

## PUBLICATIONS LIST

JHM Thornley

1. Parsons AJ, Thornley JHM, Rasmussen S, Rowarth JS. 2016. Some clarification of the impacts of grassland intensification on food production, nitrogen release, greenhouse gas emissions and carbon sequestration: using the example of New Zealand. *CAB Reviews* 2016 **11**, No. 054. ORCID.org: orcid.org/0000-0001-7441-1855.
2. Thornley JHM, France J. 2016. Blue tongue – A modelling examination of fundamentals – Seasonality and chaos. *Journal of Theoretical Biology* **403**: 17-29.  
<http://dx.doi.org/10.1016/j.jtbi.2016.05.003>
3. Faridi A, Lopez S, Ammar H, Salwa KS, Golian A, Thornley JHM, France J. 2015. Some novel growth functions and their application with reference to growth in ostrich. *Journal of Animal Science* **93**: 2641-2652. doi:10.2527/jas2014-8107.
4. Thornley JHM, Parsons AJ. 2014. Allocation of new growth between shoot, root and mycorrhiza in relation to carbon, nitrogen and phosphate supply: teleonomy with maximum growth rate. *Journal of Theoretical Biology* **342**: 1-14. doi: 10.1016/j.jtbi.2013.10.003.
5. Thornley JHM, France J. 2013. Use of growth functions to describe disease vector population dynamics—Additional assumptions are required and are important. *Ecological Modelling* **266**: 97-102. <http://dx.doi.org/10.1016/j.ecolmodel.2013.06.028>
6. Rasmussen S, Thornley JHM, Parsons AJ, Harrison SJ. 2013. Mathematical model of fructan biosynthesis and polymer length distribution in plants. *Annals of Botany* **111**: 1219-1231. doi:10.1093/aob/mct087, available online at [www.aob.oxfordjournals.org](http://www.aob.oxfordjournals.org)
7. Parsons AJ, Thornley JHM, Newton PCD, Rasmussen S, Rowarth JS. 2013. Soil carbon dynamics: the effects of nitrogen input, intake demand and off-take by animals. *Science of The Total Environment* ???
8. Johnson IR, France J, Thornley JHM, Bell MJ, Eckard RJ. 2012. A generic model of growth, energy metabolism, and body composition for cattle and sheep. *Journal of Animal Science* **90**: 4741-4751. doi:10.2527/jas2011-5053.
9. Dumas A, López S, Kebreab E, Gendron M, Thornley JHM, France J. 2012. Selection of growth functions for describing length-at-age relationships in fish species displaying different life history traits: unexpected alternatives to the von Bertalanffy equation and advantages of a pluralistic statistical approach. *CABI Reviews*: 7, no. 038. doi: 10.1079/PAVSNNR20127038.
10. Thornley JHM, France J. 2012. Dynamics of single-city influenza with seasonal forcing: from regularity to chaos. *ISRN Biomathematics* 2012, Article ID 471653, 23 pages, 2012. doi:10.5402/2012/471653.
11. Thornley JHM. 2011. Plant growth and respiration re-visited: maintenance respiration defined - it is an emergent property of, not a separate process within, the system - and why the respiration : photosynthesis ratio is conservative. *Annals of Botany*; doi: 10.1093/aob/mcr238.
12. Parsons A, Rowarth J, Thornley J, Newton, P. 2011. Primary Production of grasslands, herbage accumulation and use, and impacts of climate change. Pp 3-18. In *Grassland Productivity and Ecosystem Services*, ed. G Lemaire, J Hodgson, A Chabbi. CAB International, Wallingford UK.

13. Johnson IR, Thornley JHM, Frantz JM, Bugbee B. 2010. A model of canopy photosynthesis incorporating protein distribution through the canopy and its acclimation to light, temperature and CO<sub>2</sub>. *Annals of Botany* doi: 10.1093/aob/mcq183
14. Johnson IR, Thornley JHM, Frantz JM, Bugbee B. 2010. A model of canopy photosynthesis incorporating protein distribution through the canopy and its acclimation to light, temperature and CO. *Annals of Botany* 106: 735-749.
15. Thornley JHM, France, J. 2009. Modelling foot and mouth disease. *Preventive Veterinary Medicine* 89: 139-154. <http://dx.doi.org/10.1016/j.prevetmed.2009.02.019>
16. Thornley JHM. 2008. Interesting simple dynamic growth models. In *Mathematical Modelling in Animal Nutrition*, ed. J France, E Kebreab. Pp 89-120, CABI, Wallingford, UK.
17. Schulin-Zeuthen M, Kebreab E, Dijkstra J, Lopez S, Bannink A, Darmani Kuhi H, Thornley JHM, France, J. 2008. A comparison of the Schumacher with other functions for describing growth in pigs. *Animal Feed Science and Technology* 143: 314-327.
18. Thornley JHM, France, J. 2008. Modelling bovine spongiform encephalopathy. *Journal of Agricultural Science (Cambridge)* 146: 183-194.
19. Thornley JHM, Shepherd, JJ, France J. 2007. An open-ended logistic-based growth function: analytical solutions and the power-law logistic model. *Ecological Modelling* 204: 531-534.
20. Thornley JHM, France J. 2007. *Mathematical Models in Agriculture*. CAB International Wallingford Oxon OX10 8DE UK. Pp xvii + 906.
21. Thornley JHM, 2006. Agricultural modelling: a possible road map. *Journal of Agricultural Science (Cambridge)* 144: 450-456.
22. Thornley JHM, France J. 2005. An open-ended logistic-based growth function. *Ecological Modelling* 184: 257-261.
23. Thornley JHM, Cannell MGR. 2004. Long-term effects of fire frequency on carbon storage and productivity of boreal forests: a modeling study. *Tree Physiology* 24: 765-773.
24. Thornley JHM. 2004. Acclimation of photosynthesis to light and canopy nitrogen distribution: an interpretation. *Annals of Botany* 93: 473-475.
25. Cannell MGR, Thornley JHM. 2003. Ecosystem productivity is independent of some soil properties at equilibrium. *Plant and Soil* 257: 193-204.
26. Newman JA, Gibson DJ, Parsons AJ, Thornley JHM. 2003. How predictable are aphid population responses to elevated CO<sub>2</sub>? *Journal of Animal Ecology* 72: 556-566.
27. Thornley JHM. 2002. Instantaneous canopy photosynthesis: analytical expressions for sun and shade leaves based on exponential light decrease down the canopy and an acclimated non-rectangular hyperbola for leaf photosynthesis. *Journal of Agricultural Science (Cambridge)* 139: 104.
28. Thornley JHM. 2002. Instantaneous canopy photosynthesis: analytical expressions for sun and shade leaves based on exponential light decay down the canopy and an acclimated non-rectangular hyperbola for leaf photosynthesis. *Annals of Botany* 89: 451-458.
29. Thornley JHM. 2002. Response to "growth-maintenance component models are an inaccurate representation of plant respiration". *Crop Science* 42: 660.

30. Thornley JHM. 2001. Simulating grass-legume dynamics: a phenomenological submodel. *Annals of Botany* 88: 905-913.
31. Thornley JHM. 2001. Modelling grassland ecosystems. In *Proceedings of the XIX International Grassland Congress*, ed. JA Gomide, WRS Mathos, SCda Silva. Pp 1029-1035, FEALQ, Piracicaba, SP, Brasil.
32. Thornley JHM, Cannell MGR. 2001. Soil carbon storage response to temperature: a hypothesis. *Annals of Botany* 87: 591-598.
33. Thornley JHM. 2000. Modelling in grassland. In *Grassland Ecology V: Proceedings of the 5<sup>th</sup> Ecological Conference*, ed. D Feriencikova, N Gaborcik, L Ondrasek, E Ihliarova, M Zimkova. Pp 455-477, Banska Bystrica, Slovakia.
34. Cannell MGR, Thornley JHM. 2000. Nitrogen states in plant ecosystems: a viewpoint. *Annals of Botany* 86: 1161-1167.
35. Thornley JHM, Cannell MGR. 2000. Dynamics of mineral N availability in grassland ecosystems under increased [CO<sub>2</sub>]: hypotheses evaluated using the Hurley Pasture Model. *Plant and Soil* 254: 153-170.
36. Thornley JHM, Johnson IR. 2000. *Plant and Crop Modelling. A Mathematical Approach to Plant and Crop Physiology*. Reprint of 1990 Oxford University Press edition. Caldwell. New Jersey, USA: The Blackburn Press. [www.blackburnpress.com](http://www.blackburnpress.com). ISBN 1-930665-05-9. 669p.
37. Thornley JHM, Cannell MGR. 2000. Managing forests for wood yield and carbon storage: a theoretical study. *Tree Physiology* 20: 477-485.
38. Thornley JHM, Cannell MGR. 2000. Modelling the components of plant respiration: representation and realism. *Annals of Botany* 85: 55-67.
39. Cannell MGR, Thornley JHM. 2000. Modelling the components of plant respiration: some guiding principles. *Annals of Botany* 85: 45-54.
40. Thornley JHM. 1999. Modelling photosynthetic acclimation to CO<sub>2</sub>, light, nitrogen and temperature. *Journal of Agricultural Science (Cambridge)* 133: 342.
41. Thornley JHM. 1999. Modelling stem height and diameter growth in plants. *Annals of Botany* 84: 195-205.
42. Cannell MGR, Thornley JHM. 1998. Temperature and CO<sub>2</sub> responses of leaf and canopy photosynthesis: a clarification using the non-rectangular hyperbola model of photosynthesis. *Annals of Botany* 82: 883-892.
43. Cannell MGR, Thornley JHM, Mobbs DC, Friend AD. 1998. UK conifer forests may be growing faster in response to increased N deposition, atmospheric CO<sub>2</sub> and temperature. *Forestry* 71, 277-296.
44. Cannell MGR, Thornley JHM. 1998. N-poor ecosystems may respond more to elevated [CO<sub>2</sub>] than N-rich ones in the long term, A model analysis of grassland. *Global Change Biology* 4: 431-442.
45. Thornley JHM. 1998. *Grassland Dynamics: An Ecosystem Simulation Model*. CAB International Wallingford Oxon OX10 8DE UK. Pp xii + 241.

46. Thornley JHM. 1998. Dynamic model of leaf photosynthesis with acclimation to light and nitrogen. *Annals of Botany* 81: 421-430.
47. Thornley JHM. 1998. Modelling shoot:root relations: the only way forward? *Annals of Botany* 81: 165-171.
48. Smith P., Smith J.U., Powlson D.S., McGill W.B., Arah J.R.M., Chertov O.G., Coleman K., Franko U., Frolking S., Jenkinson D.S., Jensen L.S., Kelly R.H., Klein-Gunnewiek H., Komarov A.S., Li C., Molina J.A.E., Mueller T., Parton W.J., Thornley J.H.M. and Whitmore A.P. 1997. A comparison of the performance of nine soil organic matter models using datasets from seven long-term experiments. *Geoderma* 81: 153 –225.
49. Arah JRM, Thornley JHM, Poulton PR, Richter DD. 1997. Simulating trends in soil organic matter in long-term experiments using the ITE (Edinburgh) Forest and Hurley Pasture ecosystem models. *Geoderma* 81: 61-74.
50. Thornley JHM. 1997. Modelling allocation with transport/conversion processes. *Silva Fennica* 31: 341-355.
51. Thornley JHM, Cannell MGR. 1997. Temperate grassland responses to climate change: an analysis using the Hurley Pasture Model. *Annals of Botany* 80: 205-221.
52. Thornley JHM, Cannell MGR. 1997. Short-term and long-term responses to CO<sub>2</sub> fertilization in N-poor and N-rich grassland. *Journal of Agricultural Science* 129: 115.
53. Thornley JHM, Cannell MGR. 1996. Temperate forest responses to carbon dioxide, temperature and nitrogen: a model analysis. *Plant Cell and Environment* 19: 1331-1348.
54. France J, Dijkstra J, Thornley JHM, Dhanoa MS. 1996. A simple but flexible growth function. *Growth Development & Aging* 60: 71-83.
55. Thornley JHM. 1996. Modelling water in crops and plant ecosystems. *Annals of Botany* 77: 261-275.
56. Thornley JHM, France J, Dhanoa MS, Siddons RC. 1995. The effects of diffusion and viscosity on ruminant faecal excretion of markers in a simple compartmental model. *British Journal of Nutrition* 74: 747-763.
57. Dhanoa MS, Dijkstra J, France J, Thornley JHM. 1995. Analysis of gas production curves from in vitro incubation of ruminant feeds. *Journal of Agricultural Science* 125: 163.
58. Thornley JHM. 1995. Shoot:root allocation with respect to C, N and P: an investigation and comparison of resistance and teleonomic models. *Annals of Botany*, 75: 391-405.
59. Newman JA, Parsons AJ, Thornley JHM, Penning PD, Krebs JR. 1995. Optimal diet selection by a generalist grazing herbivore. *Functional Ecology* 9: 255-268.
60. Thornley JHM, Bergelson J, Parsons AJ. 1995. Complex dynamics in a carbon-nitrogen model of a grass-legume pasture. *Annals of Botany* 75: 79-94.
61. Thornley JHM, Cannell MGR. 1994. Predictions of the effects of climate and management change on temperate grassland. *Journal of Agricultural Science* 123: 151-152.
62. Jones MB, Ashenden T, Parsons AJ, Payer H, Raschi A, Thornley JHM. 1994. The effects of rising CO<sub>2</sub> and changing climate on grassland communities in Europe. In *Proceedings of the*

symposium "Global Change: Climate Change and Climate Change Impacts Focussing on European Research".

63. Parsons AJ, Thornley JHM, Newman JA, Penning PD. 1994. A mechanistic model of foraging and diet selection in a two species sward. *Functional Ecology* 8: 187-204.
64. Thornley JHM, Parsons AJ, Newman J, Penning PD. 1994. A cost-benefit model of grazing intake and diet selection in a two-species temperate grassland sward. *Functional Ecology* 8: 5-16.
65. Thornley JHM. 1993. Sink strength: an attractive but often misleading concept. *Plant Cell & Environment* 16: 1035-1036.
66. France J, Thornley JHM, Siddons RC, Dhanoa M, S. 1993. On incorporating diffusion and viscosity concepts into compartment models for analyzing faecal marker excretion patterns in ruminants. *British Journal of Nutrition* 70: 369-378.
67. Thornley JHM, Cannell MGR. 1992. Nitrogen relations in a forest plantation - soil organic matter ecosystem model. *Annals of Botany* 70: 137-151.
68. Cannell MGR, Dewar RC, Thornley JHM. 1991. Carbon flux and storage in European forests. In *Responses of Forest Ecosystems to Environmental Changes*, ed. A Teller, P Mathy, JNR Jeffers. Pp 256-271, Elsevier Applied Sciences, London & NY.
69. France J, Thornley JHM, Baldwin RL, Crist KA. 1992. On solving stiff equations with reference to with simulating ruminant metabolism. *Journal of Theoretical Biology* 156: 525-539.
